PAHAM BLOCKCHAIN DAN MATA UANG KRIPTO UNTUK PEMULA	https://freeton.academy/courses/paham-blockchain-dan-kripto-kurensi-untuk-pemula/	1 Hour	Bahasa Indonesia

Hello, my name is Josi Kie. I am very interested in cryptocurrency and blockchain. I'm a blogger and I'm currently studying programming at Udacity. My blog is josikie.com. I love writing articles and codes.

I made this course because now many Indonesians just follow the crypto trend without knowing and understanding what crypto is and the technology behind it. Completely explained in friendly and easy-to-understand Bahasa Indonesia in this course, starting from blockchain, cryptocurrency, Blockchain Explorer with the example using Free TON Blockchain, Free TON & TON Crystal, Genesis Block, wallets, how to use cryptocurrencies with the example of TON Crystal, exchange and trading. Everything is explained with text, some with videos. These are the basics that must be known before diving into the world of blockchain and cryptocurrencies. Thank You!

Best regards,
Josi Kie
