Hello,

My name is Timothy K, and my academy username is TimK254.

I am passionate about training/coaching/mentoring people, especially those that have the zeal to acquire more knowledge. Currently, I have a company, Investors Hacks, that offers training on how to invest in the financial and crypto markets.

This course, 'Forex Trading Course-Beginners/Refresher,' is designed straightforwardly to ensure that everyone who takes the course can understand every bit of it. I found it best to have the course hosted in the Free TON academy to create Free TON awareness, especially to my forex students that need my training. To the Free TON members, the course will provide additional knowledge and even an additional income source to those who will decide to invest in Forex trading. Also, since we have active crypto traders in Free TON, the course can help, especially on the technical analysis bit, since it's similar to what is done in forex trading.
