**Description**

By a common decision, these proposals were made by a general vote at the AMA sessions and discussions in the chats of Free TON SMM subgovernance. To consolidate the words, it is proposed to accept them during voting on the blockchain

**Following suggestions:**

1. The news articles reserved by SMM SG authors should be written and published within 1-3 days in compliance with the deadline indicated in the content plan. The deadline is set by the moderator of the plan after a discussion with the author of the article.
2. The educational articles reserved by SMM SG authors should be written and published within 10 days in compliance with the deadline indicated in the content plan. The deadline is set by the moderator of the plan after a discussion with the author of the article.
3. Deadlines for other types of articles are negotiated on an individual basis.
4. In case of violation of the rules for filling out the content plan (untimely updating of the status of the article, not indicating tags and category of the article on the blog), the payout for the given article is reduced by 10% for each missing element.
5. When an article reserved by an author in the content plan is written and published by another author, the reward for the article is received by the SMM SG member to whom the article was originally assigned.
6. If the author does not respect the deadline for writing and publishing an article, the right to write it passes to the author, who expresses his willingness to write it as soon as possible.
