Hello Ton Team

Yes , our business development manager Nik found you guys and he submitted the proposal.

It is not a free proposal , there is some development fee involved, however we think Ton has unique feature that other blockchain doesn't have . And we are ok to get paid by Ton with some discount and hope we build future partnerships to cross promotion our and yours new products in the future if that helps for you to make decisions.

Looking forward to to hear from you

Thanks
