## Bio

### Education

I have Studied Graphics Design Through an Online Platform Named SkillShare.com And Udemy.com.

I have extended My Education Further to Animations And Motion Graphics Which am currently learning.

Currently I am Working in Freeton Africa as a **Motion Graphics Designer** as well as **Video Editor**. Having Studied Online all through my course, I have known what works well for Online Students. Nowadays Students are not very good in reading written courses. They are very good in Audio Visual Presentations. This Calls for quality attractive (Tasteful) and Easy to understand modern ways of presentation.

I am ready to be the Education ambassador And work with the courses providers to come up with a very effective plan to achieve the best in Africa.

Thank you.
