"We did a LOT of investigating of design firms and companies. We sought a company with lots of experience in both design and fabrication, a company that deals in history museums, and one that has strong recommendations from past clients. We also had a very tight budget to work with and wanted a company who could accommodate a strong design for the price. TSI delivered all of those."

Ron Keller, Lincoln Heritage Museum

"Taylor Studios' creative approach to helping us uncover our organization's own unique story was both enjoyable and enlightening. They were able to create a cohesive story board from a variety of personal stories and a handful of organizational artifacts. The end result not only accurately portrays our community's rich history, but has enhanced our own understanding of who we are today."

Deb Reardanz, Clark-Lindsey retirement community

"Our project was successful because we had every opportunity to provide feedback. Everything was well coordinated and there was consistent and timely communication on all aspects of the project. Our teams meshed well and they made the process fun."

Bret Owsley, Wisconsin Department of Natural Resources
