Role	Android Developer	Number of people involved	8
Project description	This is a software system supporting the textile and garment industry in Vietnam. The system is developed with various modules such as Production Management, Inventory Management, Design Management, Order Management, Human Resource Management, and Equipment Maintenance.		
Project period	03/2023 – now		
Skill set	JAVA AND KOTLIN ANDROID		
Technical Information	Firebase, Retrofit, and MVVM Pattern.		

### WORKING EXPERIENCES

Company	RIKKEISOFT CORPORATION - DA NANG	05/2021 - 03/2023
Position	Mobile Developer	
Responsibility	<ul style="list-style-type: none"><li>• Develop and test Android apps.</li><li>• Create a successful application and maintain the source code.</li></ul>	

### PROJECTS

Project Name: E*MS		Client: Japan	
Role	Android Developer	Number of people involved	5

Project description	An application that sells courses to students, supports lesson and exercise roadmaps and provides direct communication with the instructor.		
Project period	10/2022 – 03/2023		
Skill set	<b>Dart</b>		
Technical Information	Provider, Firebase, and MVVM Pattern.		
Project Name: BIGY***		Client: Japan	
Role	Android Developer	Number of people involved	3
Project description	<p>A system supports users who book a mentor and use a beauty device in a box. The system shall include the following:</p> <ul style="list-style-type: none"> <li>- Mobile application for customers.</li> <li>- Admin Web and Web are used for mentors who can book a service in the box.</li> <li>- Application used in mirrors, support for beauty devices, and video call to mentors.</li> </ul>		
Project period	02/2022 – 10/2022		
Skill set	<b>Java Android</b>		
Technical Information	Socket IO, FlashPhoner, 100ms SDK, Hilt, Navigation, ViewBinding, Retrofit, WorkManager, Accessibility Service, RxJava, LiveData, and the MVVM pattern		
Project Name: HIM**		Client: Japan	
Role	Android Developer	Number of people involved	4
Project description	An application support store for managing and printing receipts for customers.		
Project period	09/2021 – 02/2022		
Skill set	<b>Java Android</b>		
Technical Information	EPSON SDK, Retrofit, Navigation, Hilt, RxJava, ViewBinding, MVVM Pattern.		
Project Name: ALA***		Client: Japan	
Role	Flutter Developer	Number of people involved	4
Project description	This is an e-commerce application on bicycles when users buy a bike with this application. The system will use MapBox to determine the current location and read the bike speed via BLE.		
Project period	05/2021 – 09/2021		

Skill set	<b>Dart, Java Android</b>
Technical Information	Provider, BLE, Android Native, Firebase, Mapbox, MVVM Pattern.

---

## EDUCATION

### University of Greenwich

Computer Science

2017/08 – 2021/07

Bachelor of Science in Computer Science with Honours (Full-time)

## CERTIFICATION

- Foundations of Project Management – 08/2022
- Foundations of User Experience (UX) Design – 10/2022
- Start the UX Design Process: Empathize, Define, and Ideate -11/ 2022
- Build Wireframes and Low-Fidelity Prototypes – 11/2022
- Conduct UX Research and Test Early Concepts – 01/2023
