PROFILE

Software Engineer (Front-End Developer) with four (4+) years of experience in developing user interface, my expertise as a front-end developer extends seamlessly into the realms of blockchain technology and the cryptocurrency market. My enthusiasm for programming is matched only by my curiosity and eagerness to continuously learn and evolve in this dynamic field, managed a 5-member cross-functional (product, engineering, sales, support) team and coordinated with six business partners toward the successful launch of an AZCPAY platform.
