

Student Masterclasses

Supporting success

Our Student Masterclasses help unlock student potential, providing them with the tools, knowledge and self-confidence they need to make the most of the opportunities and challenges that lie ahead.

Our masterclasses are delivered in manageable two-hour sessions and are designed to work within your school's timetable.

Our Student Masterclasses:

KS3 Rise to the Challenge (Ages 11 to 14)

The art of conquering GCSEs

This masterclass shows students how to overcome the challenges of making GCSE choices. It prepares them to face subject selection head-on, rise to the occasion and anticipate those higher education decisions that lie on the horizon. A top pick for KS3 students who want to soar.

Brain Boost Study Skills (Ages 11 to 14)

The seven habits of an effective learner

Seven simple but essential techniques to achieving mastery learning. Drawing from science on the 'learning brain', we cover learning habits such as spaced repetition, time-management, self-testing and self-explanation. Ideal for GCSE preparation.

KS4 Step It Up (Ages 14 to 16)

Supercharging AS- and A-level selection

Students master the skill of putting a results-driven mindset into the choices that boost KS5 success. Exposure to psychometric testing offers an inside view of what they're capable of learning and what recruiters and institutions use to pick top candidates. Add this to any careers or university prep programme!

KS4&5 Revise to Maximise (Ages 14 to 18)

Planning on outstanding exam results

This programme harnesses the brain's ability to retrieve and retain information through easily adoptable revision planning and memory techniques — leaving students amazed at how much more information they are able to recall at a much deeper level. Well-suited to GCSE and A-level students.

KS5 Keep in Top Form (Ages 16 to 18)

Finishing the final years

This masterclass is for learners at the top of the KS system, especially in the first year of sixth form. It brings the strands of higher education preparation together — subjects, coursework, exams, careers, goals, applications, interviews, and more. It can also be tailor-made for Russell Group university applications.

85% of students who perform to satisfactory school standards still feel they're underperforming.

(DfE, Qualification Success Rates for School Sixth Forms: 2012-2013)

About Veema

Veema helps schools transform the way their students see their educational journey. Our one-of-a-kind masterclasses offer students an insight into how a few small changes in attitude and approach can lead to some pretty big rewards further down the line. Each session aims to motivate, enthuse and inspire, resulting in a feel-good experience that leaves students wanting — and feeling as if they have the resources — to excel. This is what we do. Learn more about our masterclasses and CPD programmes for teachers at www.veema.co.uk.

About Veema's results

Our impressive **97% student approval rating** is just part of the story. The feedback we get from schools on their students' academic improvement and from parents and guardians on their noticeable improvement in attitude and morale tells us that our goal of inspiring ongoing progress is right on the mark. You can get the same results for your students. To find out more email us at masterclasses@veema.co.uk.

Make it more powerful

Create real impact and benefit students for longer with **our outstanding package**. Designed to take place over the course of a school day, this intensive package begins with a **dynamic presenter-led assembly** and continues with **student masterclasses**. We'll also leave you with a **resource boxed set** to ensure students continue to reflect on their experiences and reap the rewards for months to come.

Our team

The driving force behind our student masterclasses is Costa Constantinou (BA, MA, PGCE). He has used his experience both within the classroom and at leadership level to develop a range of masterclasses focussed on pupil learning. They are designed to boost student achievement as they progress through education and towards the world of work... A reflective approach that at its core sees learning through the eyes of the learner.

Costa Constantinou (BA, MA, PGCE)
Director of Educational Services, Veema
