Melamine Wood Colors

* Different batches may show a color variation

Description

VicTotem is a free standing, variable acoustic treatment solution to provide absorption, diffusion, bass management and even mix all in one:

It can be placed freely in any room, in any combinations and it can be repositioned and changed for different acoustic environments. It is also a fantastic product for to use for demo rooms, roadshows, clinics and trade shows. For Hifi and home cinema users, it is an incredible flexible system that can change with upgrades to your system and can be adapted to new needs. For commercial studios and project studios it offers the most versatile and flexible system available - freely movable between recording rooms and mixing situations.

VicTotem is designed with the craftsmanship of Vicoustic and is available a wide range of colours and wood finish to fit any room and space. This versatile product was designed to act as a bass trap (when placed on room corners) and it can also be used as a free-standing element to control reflections. An extra module for added height is also available.

Performance
