Vivekananda Institute of Professional Studies- Technical Campus

Job Title: Full Stack Developer (Interns)
Location: VIPS-TC Campus, New Delhi
Duration: Project-Based
Position Type- Project Based
Number of Opportunity: 06

Position Overview:

As a Full-Stack Developer (Intern) at VIPS-TC, you'll get the chance to use your web development skills and knowledge while working closely with our website team. In this role, you'll be directly involved in creating and looking after websites, adding design features, enhancing website speed and efficiency, and playing a part in boosting our online visibility. This internship is a great opportunity for learning and professional growth, giving you valuable experience in real-world projects.

Key Responsibilities:

- Collaborate with the web development team to design, develop, and maintain websites for VIPS-TC.
- Implement responsive web design and ensure seamless user experience across various devices and platforms.
- Customize website themes and templates to align with VIPS-TC branding and design guidelines.
- Optimize websites for speed, performance, and SEO to enhance online visibility and user engagement.
- Integrate and troubleshoot plugins, APIs, and other third-party tools to enhance website functionality.
- Conduct regular website updates, content additions, and improvements based on feedback and requirements.
- Assist in creating multimedia content, including graphics, images, and videos for the website.
- Collaborate with cross-functional teams to gather requirements and provide technical solutions for web projects.
- Stay updated on emerging trends, best practices, and technologies in web development.

Qualifications:

- Pursuing a degree in Computer Science, Web Development, or related field.
- Proficiency in web development technologies, including HTML, CSS, JavaScript, and React JS.
- Familiarity with content management systems (e.g., WordPress, Joomla, Drupal) and website builders.
- Basic knowledge of Google Analytics, Google Search Console, and other tools related to SEO.
- Basic knowledge of graphic design tools like Figma, Adobe Photoshop, Canva, Illustrator, or similar.
- Strong problem-solving skills and attention to detail.
- Excellent communication and teamwork abilities.
- Eagerness to learn and adapt to new technologies and development methodologies.

Remuneration:

This internship offers a consolidated pay of INR 11,000 for the intern after the successful completion of the project. Alongside the monetary benefits, the intern will gain valuable experience, mentorship, and the opportunity to expand their portfolio and skills in computer science filed.

VIPS-TC is an equal opportunity employer. We encourage applications from candidates of all backgrounds and experiences. VIPS-TC is dedicated to creating a diverse, inclusive, and equitable campus environment. Submitting an application does not guarantee a position and would only be offered after clearing the application selection process. Applications does not ensure a job, and there is no guarantee of permanent employment after successful completion of the internship.
