Report of the Event:

A visit to the Yakult factory was organised to provide students with an opportunity to gain practical knowledge about the production process, quality standards and functioning of the dairy-based beverage industry. The visit aimed to familiarise students with the manufacturing process of Yakult and help them understand the scientific principles behind its production. It served as an educational experience, allowing students to learn beyond the classroom and gain insights into the working of a manufacturing facility.

During the visit, students were introduced to the role of beneficial lactic acid bacteria in Yakult and the importance of milk in its production. The tour provided insights into the various stages of manufacturing, processing, packaging and quality control. Students also learned about the importance of maintaining hygiene and safety standards throughout the production process. The visit helped them understand how scientific knowledge, technology and efficient management practices work together to ensure product quality and consistency.

The visit proved to be an informative and enriching experience for all the participants. It enhanced students' understanding of industrial operations and provided valuable exposure to the practical aspects of production and quality management. Overall, the Yakult factory visit was a meaningful learning opportunity that encouraged curiosity, broadened students' perspectives and strengthened the connection between theoretical knowledge and real-world applications.

Outcomes:

- Provided students with an understanding of Yakult's manufacturing process and production methods.
- Explained the role of beneficial lactic acid bacteria and the use of milk in Yakult production.
- Highlighted the importance of hygiene, quality control and safety standards in manufacturing.
- Introduced students to the practical functioning of a factory and industrial operations.
- Enhanced students' practical knowledge by connecting theoretical concepts with real-world applications.
