

Fabián Skármeta

Full-Stack Developer

After a long period of flirting with the humanities and the arts, I have discovered a passion that integrates very well with my personality: web development. Currently absorbing the entire spectrum, from design to architecture and implementation of systems. I am proactive and meticulous in everything I engage with. I work well in teams, am problem-solving-oriented, and quickly learn what is necessary to be able to integrate myself into new projects. Finding creative solutions is my stronghold.

WORK EXPERIENCE

Frontend Developer WE.D.IT (wedit.cl)

02/2021 - Present
Software and Web Development Company

Present

- Currently working on building the enlightaid.org app. With the Vue, Vuex, Quasar, and Firebase stack. Integrating functionalities, cloud functions, pages, components, and styling.

Executive Producer

Inda Goycoolea & Asociados

07/2017 - 01/2020
Entertainment Company

Achievements/Tasks

- Lead Executive Producer for tens of theater plays, concerts, and musicals. Also, music composer for three theater plays.

Contact: Enrique Inda Goycoolea - +56 9 934 463 92

PERSONAL PROJECTS

Tibia Game Bot (01/2021)

- Made with NodeJs and robot.js. Automates your mouse and keyboard to eat and craft runes after a random amount of time. A smaller script is there to fish. If an admin talks to you the script gets stopped, an SMS message is sent to your phone with a warning and your player will say "hello" in the chat.

Chilegigs CRUD (12/2020)

- Designed and developed a DJ booking website with a React frontend and a Flask backend. The website is fully featured with CMS-like functionality, notifications, and traffic monitoring.

Birds Of Chile (12/2020)

- Display of birds from Chile using React, consuming an API and using a CSS cube concept. You can also filter the birds by name.

Github Calendar Clone (11/2020)

- A GitHub calendar clone made with React. Each day's color changes depending on the entries. Has been tested with flask backend and it's open-sourced.

A complete list of all my projects and links can be found on my portfolio website bafian.com

EDUCATION

Sociology Studies

Pontificia Universidad Catolica de Chile

03/2016 - 06/2017

BA in Humanities

Universidad Diego Portales

03/2013 - 12/2015
