## PROFESSIONAL SUMMARY

I have more than 2 years cumulative experience in Frontend Web development. I also have noteworthy experience in Search Engine Optimization. I have worked remotely on a couple of projects with teams of people from various backgrounds; this has helped me grow vital coworking and collaborative skills. Over the years I have developed the required maturity, experience and technical know-how required to work on any software project within my skill set. I am passionate, resilient and dedicated to anything I get involved with.

## EXPERIENCE
