EXCLUSIVE  
PATENTED  
TECHNOLOGY

CUT INSTALLATION  
TIME BY 1/3!

*Feed through opening*

Westgate's new feed-through armored ground clamp saves time, labor and material by allowing you to feed armored ground through the clamp and onto the next connection. Ground wire does not get cut! Cut only the outer armored jacket and insert ground wire into center lug. Secure each side of the armored jacket into the strain reliefs located on each side of the clamp.

ROTATES  
360°

Saves time, labor and material by feeding armored ground from any direction. Landing lug rotates 90–180–270 degrees. Ideal for tight spaces or short runs that make changing direction hard! Reduce cable runs, save time and simplify installation. Rated for use with ground rods and rebar, plus steel, iron and copper pipes.
