

OUTDOOR EM ENCLOSURE

ODEMB is an IP65 NEMA 3R, outdoor-rated, Emergency Backup enclosure, designed to house backup components and be mounted externally. This is an ideal solution for fixtures with smaller housings where there is not enough room to place the EM inside the fixture. All necessary cables and components are included. It is available in Bronze and White finishes and is paintable.

Applications:

- External mounting of emergency backup for all fixtures.

ODEMB (Bronze)
ODEMB-WH (White)
