### CERTIFICATIONS:

MODEL	MAX CURRENT	INPUT VOLTAGE
TC-PL12-RGBW-CONTROLLER	$\leq 2.5A$	DC 5~24V

### DISTRIBUTION NETWORK PROCESS

- When the controller light is breathing, it's in APP mode; when steady, it's in remote mode.
- To switch to APP mode, press reset 5 times until the light breathes.
- APP setup: Download WG SMART APP, connect your phone to a 2.4G Wi-Fi, tap "+" "Add Device" when the light breathes.
- Remote setup: When the light is steady, hold any remote button for 5 seconds to connect.

**WARRANTY:** 3 years
