Refrigerated display case with circulating air for cooling cakes, cream cakes and snacks.

On the customer side with rounded, angular or slanted glass construction made of safety glass.

The glass shelves are height adjustable and can be set at an angle, which means better

Temperature: < 7°C at 25°C/60% relative humidity (climate class 3 according to DIN EN ISO 23953).

Construction, merchandise display and interior pan are made entirely of stainless steel, material 1.4301. Pan interior is finished with 1.1/4" flush threaded drain fitting and hygienic corners that are easy to clean. Pressure-injected expanded polyurethane insulation. The exterior is made of galvanised sheet steel. Inside the pan is a generously sized circulating air evaporator with coated surface and quiet low-voltage ventilators (12 V DC) for air circulation. Located above the circulating air evaporator is a merchandise display made of ground stainless steel, material 1.4301.

To clean the pan bottom, the merchandise display with circulating air evaporator and ventilators can be folded upwards and locked in the top position via gas pressure springs. For easy cleaning of the evaporator, it can be folded down (MOVE-DOWN FUNCTION) when the merchandise display is open. To clean the area behind the pan or to carry out servicing, the merchandise display can be moved forwards (MOVE-AWAY FUNCTION).

The front glass pane is made of safety glass and can be swung outwards for easy cleaning. The side glass panes and the height adjustable shelves are also made of safety glass. For good

Humidity: approx. 70% to 85%.

Commercial product for the installation in stationary food and service counter

Display TraysDesign: Made entirely of stainless steel, ground surface.
Set on edge on 4 sides, open corners.

Dimensions Art.-No. 600 x 400 x 10 mm 3670 600 x 200 x 10 mm 3671 400 x 400 x 10 mm 3655

Snack Racks

For presentation of snacks. Made entirely of stainless steel, model with 7 or 5 compartments.

Dimensions	ArtNo.			
90 x 595 mm	2676			
180 x 595 mm	2681			
180 x 390 mm	2682			

A digital defrosting and temperature controller is mounted beneath the cooling pan. The flat control panel (installation depth: approx. 20 mm) can be removed for mounting in the counter front (cable length: approx. 1 m).

With WIHA-LONG-LIFE for a longer operating life of the cooling unit.

<u>Version DT 400</u>: Wing door can also be hinged on the right side; hinges are included.

<u>Version DT:</u>
The operator side has wing doors made of insulating glass.

Otherwise:
The operator side has sliding doors made of insulating glass, easily removable for cleaning (without bottom rail).

<u>Version 1600 D</u>:
The refrigerated display case is divided with a glass partition in the middle. Both halves can be operated with different temperatures (2 thermostats).

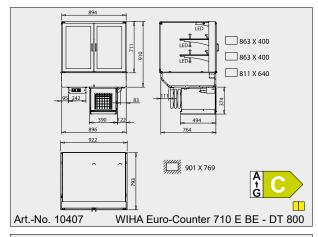

For External Cooling Unit
Delivery includes:
- Expansion valve for R134a/R513A
- Defrost and temperature controller

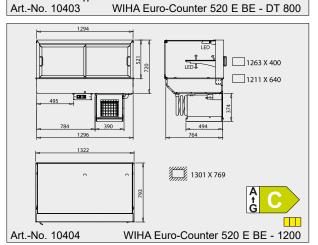

Cooling Unit Model

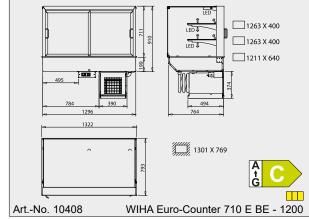

The cooling unit is encased in a stainless steel housing and is located beneath the cooling pan. It is easy to remove for servicing.

A condensate pan is available as accessory.

The front glass pane is made or sarely glass and can be swung outwards for easy cleaning. Ine side glass panes and the height adjustable shelves are also made of safety glass. For good illumination, a protected LED light (standard colour: white) is mounted above each shelf. The shelves are suitable for Euro-Norm dimensions (400 mm x 600 mm or 400 mm x 300 mm). The mounting lip makes installation easy. The shelves can be set at an angle, which means better presentation. 863 X 400 LED ↓ 811 X 640 922 901 X 769

The drawings are shown with special accessory that is not included in the scope of delivery; more drawings are available on www.wiha-web.com under "Info Centre I
