

Clear Polyacrylic Top Coat for Interior Walls and Paints

PRODUCT INTRODUCTION

WINONE WONDERTOUCHE is a long-lasting, eco-friendly, water-based, Ready-to-Use, Polyacrylic based lacquer which forms a transparent, washable, scratch resistant, anti-fungal, anti-bacterial, UV resistant, protective barrier coat. It is used to give extra protection with enhanced performance to walls and surfaces painted with acrylic or synthetic distempers, semi-acrylic emulsions, 100% premium acrylic emulsions and luxury emulsions. Gypsum board partitions can also be protected with WINONE AQUACOAT TC.

WINONE WONDERTOUCHE has excellent stain resistance and is easy to clean and maintain. It keeps the surface looking new by sealing the porosity of the surface and guarding it against oil stains, dirt, moisture ingress, abrasion and scratches as well as the harmful effects of environmental pollution.

WINONE WONDERTOUCHE has very good resistance to fungi and bacteria. It enhances the color and appearance of the painted surface and helps extend its life.

KEY FEATURES

Washable

Stain Resistant

**100% water-based,
Eco friendly**

ADVANTAGES

- Abrasion Resistant
- Chemical Resistant
- Anti-bacteria/Anti-fungal
- Color Enhancement

APPLICATIONS

- Bungalows
- Apartments
- Bathrooms
- Offices & Homes
- Agricultural warehouses
- Food processing areas
- Pharmaceutical workplace
- Hospitals, clinics and healthcare facilities

TECHNICAL SPECIFICATIONS

Drying time	1 -2 hours
Coverage	20-25 sq.m/litre
Colour	Transparent
Abrasion Resistance	Good

MIXING RATIO

Single component- Ready to use

STORAGE

- Store the Coating in a Clean and Dry place.
- Best Use before 12 months from the Date of Manufacturing
