SUMMARY

Software Engineer with 5+ years of experience turning complex ideas into clean, scalable applications, primarily with Flutter, and also with React and Next.js.

I bring strong database design and backend development skills, so I can handle a project end to end, from architecture to a polished user interface.

I've also led teams and coordinated projects, which helps me keep development on track and aligned with real goals.

WORK EXPERIENCE

Senior Mobile Application Developer | HealthyU

Sep 2025 – Sep 2026

- Built HealthyU, a cross-platform subscription app (iOS, Android, Alipay+ SuperQi) for two supplement brands, MANN and FLAVIE.
- Designed the end-to-end user journey: registration, QR box linking, daily routines, and smart reminders.
- Implemented progress tracking features, including photo-based before/after comparisons and weekly check-ins.
- Built subscription and reorder flows with integrated payment and delivery address handling across native and mini app platforms.

Senior Flutter Developer | Architech Company | Part-time

May 2024 – Aug 2025

- Developed core features and maintained mobile applications using Flutter as the primary focus.
- Collaborated with the team to implement best practices, ensuring performance, scalability, and code quality.
- Coordinated tasks and mentored junior developers while supporting communication with stakeholders to keep projects on track.

Flutter Developer & Project Manager | Morina Company

Des 2022 – Jan 2025

- Started as a Flutter Developer and was promoted to Project Manager in July 2023 after 7 months.
- Developed and optimized mobile applications using Flutter, contributing to multiple company projects.
- Collaborated with the team to troubleshoot, debug, and implement new features, ensuring high-quality, user-centered apps.
- Led project planning, execution, and delivery as PM, keeping cross-functional teams aligned with goals and timelines.
- Managed stakeholder expectations, scope changes, and risks while maintaining strong team collaboration.
- Contributed to strategic planning and decision-making, driving continuous improvement across projects.

Mobile Application Developer | Freelance

Feb 2020 – Des 2022

- Developed mobile apps independently using Java and Flutter, from concept to deployment.
- Delivered user-friendly solutions for freelance clients across different platforms and requirements.
- Kept up with mobile development trends to continually improve app quality and performance.

EDUCATION

Bachelor of Computer Science

Nov 2019 – Jun 2023

University of Sulaimani

- Major in Computer Science

KEY SKILLS
