ABOUT ME

I am a software developer with expertise in Flutter and a strong background in computer science. With experience in both development and project management, I thrive in delivering high-quality solutions. I stay updated on industry trends and focus on practical problem-solving to bring ideas to life efficiently.

WORK EXPERIENCE

Software Engineer

Morina Company [27/12/2022 – 01/01/2025]

City: Sulaymaniyah | **Country:** Iraq | **Website:** www.morinairaq.com | **Email address:** info@morinairaq.com | **Name of unit or department:** Development - **Business or sector:** Information and communication

Flutter Developer (December 2022 - July 2023)

- Developed and optimized mobile applications using Flutter, contributing to multiple projects within Morina Company.
- Collaborated with team members to troubleshoot, debug, and implement new features, ensuring high-quality and user-centered applications.
- Demonstrated technical expertise in Flutter development, delivering efficient and effective code.

Project Manager (July 2023 - January 2025)

- Led project planning, execution, and delivery, ensuring alignment with organizational goals and timelines.
- Managed and coordinated cross-functional teams, promoting effective communication and collaboration.
- Fostered a positive and collaborative work environment, building rapport with colleagues and maintaining high levels of team morale.
- Demonstrated adaptability in managing project scope changes, risks, and stakeholder expectations.
- Actively contributed to strategic planning and decision-making, providing insights for continuous improvement and project success.

Software Engineer

Architech Company [01/05/2024 – 01/10/2024]

City: Sulaymaniyah | **Country:** Iraq | **Website:** <https://www.architechiraq.com/> | **Email address:** info@architechiraq.com | **Name of unit or department:** IT and Development - **Business or sector:** Information and communication

Team Lead (Part-Time)

- Oversaw a team of developers, ensuring alignment with project goals, deadlines, and quality standards.
- Provided mentorship and technical guidance to team members, fostering growth and skill development.
- Coordinated team activities, ensuring efficient task distribution, prioritization, and progress tracking.
- Acted as a primary liaison between team members and management, ensuring effective communication and project transparency.

EDUCATION AND TRAINING

Bachelor in Computer Science

University of Sulaymani [10/10/2019 – 12/06/2023]

City: Sulaymaniyah 12-06-2024 12-11-2023 | **Country:** Iraq | **Website:** www.univsul.edu.iq | **Level in EQF:** EQF level 6

LANGUAGE SKILLS

Mother tongue(s): Kurdish

Others

Firebase / Supabase / Git / Github / CI/CD / Linux

PROJECTS

[02/10/2024 – 01/01/2025]

Falafelo (Mobile App)

Developed a high-performance food delivery application using **Flutter** and **Dart**, featuring seamless map integration, real-time notifications, and multilingual support. Leveraging Mapbox for interactive and accurate map functionality, I implemented efficient location tracking and navigation to enhance the user experience for customers. Push notifications keep users updated on order status and delivery progress, while multi-language support broadens the app's accessibility, catering to a diverse user base.

[02/02/2023 – 15/05/2023]

Morina Menu Dashboard - Web App

Designed and developed Morina Menu, a web-based digital platform enabling restaurants to manage their dining menus seamlessly through an intuitive dashboard. This application offers user-friendly tools for updating menu items, customizing branding elements like colors, and organizing categories for a streamlined dining experience. The dashboard optimizes the workflow for restaurant staff, allowing real-time menu adjustments that enhance customer satisfaction. This project showcases my ability to build efficient, scalable web applications with a focus on user experience and operational ease.

Link: <https://portal.morinamenu.com>

[27/12/2022 – 01/02/2023]

Dragon (POS system) - Windows App

Developed an offline POS system tailored for Dragon Fast Food. This Windows-based application streamlines order processing, and sales tracking, providing a reliable solution for efficient, day-to-day operations in a fast-paced environment.

[05/05/2023 – 01/07/2024]

Morina POS Dashboard - Web App

Built a robust web-based POS admin dashboard for the Morina POS system, tailored to meet the dynamic needs of restaurants. This application provides extensive functionalities, including product management, inventory tracking, expense monitoring, and

purchasing capabilities. The product management module allows for easy addition, updating, and categorization of menu items, ensuring flexibility and accuracy in order handling.

The inventory management system tracks stock levels in real-time, reducing the risk of shortages and helping to streamline restocking processes. Expense tracking tools provide insights into operational costs, enabling better budgeting and financial decision-making. Additionally, the purchasing module facilitates efficient ordering from suppliers, making it easy to manage supply chains.

This project highlights my expertise in creating feature-rich, scalable web applications that enhance operational efficiency and support business growth in the restaurant industry.

[01/03/2024 – 01/05/2024]

Ankimate - Mobile Application

Developed a cross-platform mobile application for Ankimate, a course management platform enabling teachers to publish educational courses and students to purchase them easily. The mobile app, available for both Android and iOS, provides an intuitive interface for browsing, purchasing, and accessing course content. With a focus on user-friendly design, the app streamlines the experience for students to find relevant courses and for teachers to showcase their material. This project underscores my ability to create responsive, engaging mobile applications that support seamless educational transactions and learning experiences.

[01/05/2024 – 01/06/2024]

Ankimate - Admin Dashboard (Web App)

Built Ankimate's admin dashboard that lets teachers easily manage their online courses, track student progress, and monitor sales. The intuitive interface makes it simple to publish content and keep tabs on how courses are performing.

[01/06/2024 – 01/07/2024]

Fruj Fresh - Mobile Application

Built FrujFresh, a mobile app that connects local poultry farms with customers for same-day chicken delivery.

Links: <https://play.google.com/store/apps/details?id=com.architech.frujfresh> | <https://apps.apple.com/iq/app/fruj-fresh/id6511192964>

ArchiMenu Dashboard - Web App

Built Archimenu, a simple dashboard for restaurants to create and update their digital menus in real-time, letting customers scan QR codes to view daily specials and place orders instantly.

Even shorter: Developed Archimenu, a digital menu platform where restaurants can manage QR-based menus and handle orders in real-time.

[01/10/2024 – Current]

MOJA - Mobile Application

Built MOJA, a secure authentication app that replaces traditional OTP by sending verification codes through the app itself, making login smoother across any service.

[23/12/2024 – Current]

MOJA - Admin Dashboard

CERTIFICATIONS

[13/01/2024 – 16/01/2024]

Foundations of Project Management (Google)

Get a complete foundation in project management fundamentals. Learn project roles and responsibilities, explore different management approaches, and understand how organizational dynamics impact project success across all industries.

Link: <https://coursera.org/share/faedecb0b9f539cacfe34f5704c198ce>

[08/01/2024 – 13/01/2024]

Agile Project Management (Google)

Master Agile project management and Scrum fundamentals. Learn core Agile values, understand essential Scrum practices and events, and develop the coaching skills needed to guide high-performing teams to success.

Link: <https://coursera.org/share/a6217cbebf3cb6e1209817ad0d938a4>

[16/01/2024 – 19/01/2024]

Project Initiation: Starting a Successful Project (Google)

Master the crucial project initiation phase. Learn to create effective project charters, analyze stakeholder needs, define team roles using RACI charts, and select the right tools to set your projects up for success.

Link: <https://coursera.org/share/acd2dbb4bc82ba67e9eb5ac02526832f>

[19/01/2024 – 23/01/2024]

Project Planning (Google)

Master comprehensive project planning fundamentals. Learn to create detailed project and risk management plans, develop and track budgets effectively, and establish clear communication strategies for project success.

Link: <https://coursera.org/share/86dcd18b1cf409595b4a4132284dcec6>

[23/01/2024 – 27/01/2024]

Project Execution: Running the Project (Google)

Master the final stages of project delivery. Learn to maintain quality standards, analyze project data, lead high-performing teams, and properly close projects with professional documentation.

Link: <https://coursera.org/share/b4b1db5adb3c09afff207244b80420ba>

[27/01/2024 – 02/02/2024]

Applying Project Management (Google)

In this course, you'll learn to develop a comprehensive project charter, establish and evaluate quality standards, create engaging stakeholder reports using storytelling techniques, and enhance your job interview preparation with practical AI skills.

Link: <https://coursera.org/share/c702aefb4f3e2eeddcba3f1b8512f27>

[02/02/2024 – 16/02/2024]

Web & Mobile Designer

I gained skills in web and mobile design using Figma, applying UI/UX principles, and converting designs into functional websites with HTML and CSS. I also learned to customize assets, incorporate feedback, and build a professional portfolio.

Link: <http://ude.my/UC-721d22ff-917b-4159-a02e-c9c25bfb48c8>

[23/05/2024 – 23/05/2025]

Understanding Business

I learned core business concepts from Professor Eddie Davila at ASU, covering finance, marketing, supply chain, accounting, HR, and IT. The course explored profitability, business flows, and team roles in operations.

Link: https://www.linkedin.com/learning/certificates/3c4713e089c6937060662f2d91e622e146950daaebad9f163625f577f6d10005?trk=share_certificate

[08/04/2024 – 11/04/2024]

Remote Work Foundations

I learned to structure remote work effectively, manage routines, and build trust with colleagues. Alexandra Samuel covered workspace organization, self-care, and remote work types for better productivity and well-being.

[27/06/2024 – 30/06/2024]

Career Essentials in GitHub Professional Certificate (Github)

I learned to enhance my GitHub portfolio by creating automations with GitHub Actions, exploring Copilot, and applying GitHub features to real projects. These skills prepare me for advancing my developer career.

Working with Difficult People (Dr. Emily Anhalt)

I learned strategies for handling difficult workplace relationships through empathy and effective communication. Dr. Emily Anhalt taught techniques for managing negative or competitive behaviors, improving workplace dynamics.

Skills to Build Stronger Work Relationships (Dr. Emily Anhalt)

I learned to build resilient workplace relationships through ownership, empathy, and effective communication. Dr. Emily Anhalt provided strategies for proactive interactions, conflict management, and fostering a positive work environment.

[02/07/2024 – 02/07/2024]

Learn How to Manage Remote and Hybrid Teams as an Aspiring Manager

This course taught me effective strategies for managing remote and hybrid teams, focusing on communication, engagement, and collaboration. I learned how to address unique challenges and foster a productive and supportive work culture.

[01/11/2024 – Current]

Career Essentials in Business Analysis by Microsoft and LinkedIn

This course equipped me with foundational skills for a business analyst role, covering essential concepts and processes. I practiced using software tools for tasks like requirements gathering and analysis, enhancing my capabilities in business analysis.

HOBBIES AND INTERESTS

Cyber Security

Artificial Intelligence(AI)

I love AI as a hobby because it lets me explore cutting-edge technology, solve complex problems, and push the boundaries of what machines can do—all while keeping me challenged and inspired.

Quantum Computing

I'm drawn to Quantum Computing because it challenges conventional logic, unlocks new possibilities in computing, and brings a thrilling sense of discovery with every concept learned.

Solving Puzzles

Chess
